Celebrate the Arts of the World - in California

California Arts Day is a time for Californians to show how much they value the arts - and what a rich diversity we have to choose from. So participate! Go to a play, shoot a video, compose a poem, dance, paint a picture, sing, attend a concert, beat a drum, read a book...to a kid. And join with other Americans across the nation in celebrating all of Arts Council October as Arts and Humanities Month. www.cac.ca.gov
